

**Remarks**

Applicant respectfully requests entry of this amendment and reconsideration of this application as amended herein.

This amendment proposes to amend claims, 1 and 2 to improve the application for consideration by the Board. No new material has been added and the only changes proposed are to improve the clarity of the claims regarding the several surfaces that are recited. The Examiner has not objected to claims 1 and 2 on the ground of lack of clarity, but Applicant would like to take this last opportunity to make the claims as clear and definite as possible. Since the scope of the claims is not being changed in any way, thereby avoiding the need for further consideration and/or search, and since the amendment is believed to present the application in better form for consideration by the Board, Applicant believes that entry of this amendment is warranted. Applicant respectfully request that the Examiner enter this amendment and reconsider this application in view of the improved clarity and definiteness of claims 1 and 2.

Respectfully submitted,

J. Michael Neary
